

# **Con –Tech Concrete Floors Ltd.**

Dear Sirs,

RE:- SUB-CONTRACT SUPPLIERS LIST

Further to our recent conversation, regarding our inclusion in your sub-contract suppliers list for Concrete Floor laying sub-contractors.

As discussed we are a small concrete floor contractor specialising in setting up slabs prior to pouring and the pouring of the slabs. Our work includes, but is not limited to the laying of ground bearing slabs, upper floor slabs and external slabs. We can finish the slabs as required be it Power floated, Brush or tamp finishes.

We have around 30 years experience in laying concrete slabs and have worked on many contracts all over the UK.

We are based in Manchester but we are able to carry out works in any part of the Country.

We own all our own plant.

All our operatives are competent and all have current CSCS skills cards and have passed the CITB site safety test.

It is our policy to provide risk assessments and method statements for each contract.

We believe that we can offer you a complete service with a quality product at rates that are more competitive than our competitors.

We would be pleased if we could be included on your suppliers list and would be happy to complete any questionnaire's that may be required.

We have attached a selection of photographs of our works.

Yours faithfully

Don Thomson
